Questions for

would you put it saids something of doubtful

efficiency?

If you saw before you a strong and safe bridge leading to your goal, would you ignore it to try some insecure and tottering structure?

The answer to these questions is plain. You would, of course, choose without besitation what all evidence showed to be the safe thing, and you would risk nothing in uscless experiments.

Why, then, do some women rise one of their most precious possessions—their health—in trying medicines of unknown value, which may even prove hurtful to them.?

Lydis E. Pinkham's Vegetable Compound has stood the test of years. It has the largest sale of any remedy for female ills in the world, and nothing could have given it this sale except its own merit.

is claimed for it, and all statements in regard to it can be easily verified. Write to Mrs. Pinkham at Lynn, Mass. for a little book she has just published containing letters from the mayor of Lynn, the postmaster and others.

Mrs. Pinkham's advice is offered free of charge to all women who write to her for aid. This invitation is constantly renewed. A million women have been cured of serious female ills by Mrs. Pinkham's advice and medicine.

orators and are freely used by them. There is a brand called the Seal Brand of coffee, that will never need to be plucked from the burning. Chase & Sanborn don't burn this,

their most famous brand: they roast it to perfection.

Most anyone knows that unskilled roasting would seriously injure any coffee. This is one reason that Chase & Sanborn's Coffee

their Seal Brand, but all their high grade coffees, packed in richly colored parchment-lined imported bags, have become the most famous of all coffees in our country.

Experts handle it and prepare it, but first of all it is raised on plantations famous for their crops.

What is more experts select every bean and the same care and diligence is exercised until this famous coffee reaches the consumer's hand.
